Let's Unlock All the Good That Comes From Shared Transport!

[Liftango](#) powers some of the most successful On-Demand Shared Transport systems across the world.

Liftango's leading shared mobility technology gives transit operators the ability to fully integrate Demand-Responsive Transport (DRT) solutions with existing Fixed-Route networks, empowering them to:

- Improve network coverage and increase patronage
- Deliver greater flexibility to their passengers
- Make data-driven optimizations to inefficient networks
- Improve passenger catchment and integrate with the broader transport network

If your transit agency is struggling with any of the challenges listed above, Liftango's On-Demand Shared Transport solutions can help you confidently create one platform to manage and optimize your operations.

Get the Product Guide!

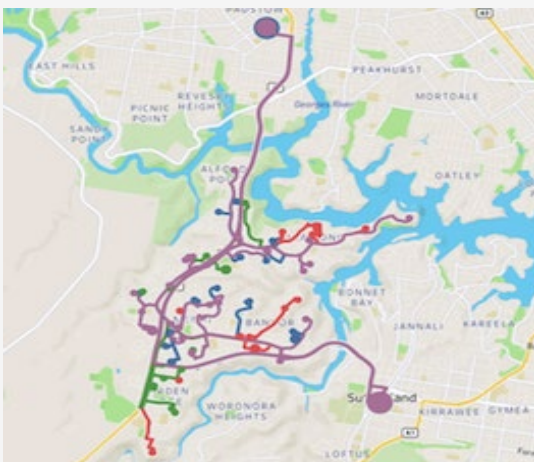

Learn More About Liftango!

Leverage DRT to Improve Social Equity

Liftango's On-Demand Transport solutions are helping more passengers reconnect with their communities by providing affordable, reliable transit options to vulnerable community members.

13 Steps to Improve Rural Transport

Simulate, Plan, and Deploy with Confidence

Leverage Liftango's data-driven transit system planning and design services to help ensure the success of your next shared mobility project.

Meet the New Mobilities Team

FRODO Delivers True Fixed-Route, On-Demand Integration

Liftango's proprietary Fixed Route On-Demand Options (FRODO) technology allows operators to present riders with a combination of traditional fixed-route or

DRT options depending on their mobility needs.

Dear to whom it may concern:

I'm a citizen of San Mateo County(San Bruno) and working for the Jefferson Elementary School District (Middle as well) in Daly City . With the new reimagining system of Samtrance, I have noticed that the school bus sign of 40 is omitted on the Sneath boulevard . For a convenience and easy commute, Please add the 40 bus sing to the 141 bus stop sign to and from San Bruno Bart.

Sincerely,
Eleonora Movsesova

MASS TRANSIT

WHITE PAPER

Building a Culture of On Time Performance, Part II: Finding Answers

Transit operations have a lot on their plate, from making sure they have enough buses to cover routes to reconciling a pile of maintenance reports. It can be hard to focus on making improvements when so much of your day is noise. You can cut through the noise and get the data you need to make those decisions with centralized data and data analytics provided by the Transit Asset suite in myAvail ETMS. This software includes features to support your entire organization and business intelligence dashboards so that you get answers, not just data.

Subject: Adding 1 stop bus sign of the school bus 40
Date: Saturday, October 1, 2022 5:29:06 AM

[You don't often get email from emovseso@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

ATTENTION: This email came from an external source. Do not open attachments or click on links from unknown senders.

Hello, I'm writing to ask you to add a stop sign for the school bus 40 on Sneath Blvd. There is a stop for 141. How come the bus 40(school bus) stop was omitted? Please for the riders convenience (students, school staff, and senior citizens living nearby) add a stop sign 40 to the stop sign of the bus 141 going the same direction to San Bruno Bart.

Sincerely,
Elenor Movsesova
