To Yelena Levitsky-Kurochkina,

Thank you for contacting SamTrans. We appreciate you taking the time to share your feedback and concerns with us. Know that your comments were forwarded to the proper parties for review. A copy of this correspondence will also be sent to our Board of Directors.

SamTrans understands maintaining the safety of our service is integral to our mission of providing community with a high-quality transit system. Rest assured, we will continue to take appropriate action in pursuit of that goal. However, we would like to remind you that the Transit Police Sheriff's Office also monitors our service, and they are highly dedicated to keeping the public safe. While we, of course, hope you never have occasion to call them, know that you can reach the Transit Police any time you feel unsafe on our service by calling 1-877-723-7245—or 911 in an emergency.

Kind regards,

Alexis Salandanan

Attention to Board:

There are several updates need to be done:

1. The use of Wi-Fi system of public transportation and people on bus who using our-USA systems, but talk to other countries. It is use of our country, USA, CA. If emergency it will be hard to find a bus in what it's happens, many or all cars have the similar Wi-Fi's and to located bus to direct to driver what to do will be hard.

For example 911 dispatcher didn't get a note, when driver of ECR bus route was calling and

talking to own dispatcher of Samtrans. It is important if something need such Medical or other attention.

2. People continue to take pictures of me,while riding bus, they do no care,but use pictures-apply "she is my family" or she is that and that".Our Silicon Valley-CA,USA rules are not to take pictures of other people-entity rules.

3. Bus drivers some do not have seat belts on, is it dangerous?

4.The bus pass have a face of woman on it. Insurance is high due to use of face of person.If it say SamTrans-it lesser amount.
