The Honorable Laphonza Butler
United States Senate
112 Hart Senate Office Building
Washington, DC 20510

Dear Senator Butler:

On behalf of the San Mateo County Transit District (SamTrans), I am writing to thank you for submitting a funding request for the SamTrans Bus Stop Amenity Improvements Project as part of the FY 2025 Transportation, Housing and Urban Development Appropriations Bill.

This project will enhance facilities and amenities at 20 SamTrans bus stops in the Cities of San Mateo, South San Francisco, San Bruno, East Palo Alto, Belmont, Redwood City, and Daly City. These improvements are part of SamTrans' Bus Stop Improvement Plan (BSIP), which identified over \$50 million in near-term improvements to bus stops throughout SamTrans' bus network in San Mateo County, California and parts of San Francisco and Santa Clara Counties.

In 2019, SamTrans began *Reimagine SamTrans*, a project to evaluate and refresh the entire SamTrans bus system. This effort, which included three rounds of large scale multilingual public outreach, established bus stop improvements as a priority request from riders and the community as a whole. As a result, SamTrans committed to providing a comfortable, convenient, and dignified experience for riders at bus stops.

SamTrans is prioritizing stops that have the highest ridership levels and are in most need of improvement. Amenities proposed to be installed include shelters or shade structures, upgraded signage, system maps, route schedules and real time information signage—all of which were identified by riders as top priorities. These enhancements will help address the needs of a significant portion of SamTrans riders, 64% of whom are at or below the Federal Poverty limit and nearly 75% of whom are without access to a car.

Thank you for your support for public transit and transportation projects in our region. We look forward to working with you to secure final approval of this funding as part of the FY 2025 appropriations cycle.

Hello,

I hope this email finds you well.

I wish to express my interest in submitting a public comment to today's meeting.

My name is Joshua Forman-Ortiz and I am the Student Life and Leadership Assistant at Cañada College. A portion of my job duties are to assist students in their transportation needs and therefore I just wanted to use this time to introduce myself and express my interest in building relationships with SamTrans as well as being more knowledgeable and aware of SamTrans to better serve the community college. Furthermore, I am here today to express interest in adding a 278 Express – a route that can get students to Cañada College's campus with less stops along its way. Additionally, I wish to advocate for an evening schedule for 278 riders as well, especially as we move towards the beginning of the Fall Semester and I wish to look out for students who will be on campus at night. Thank you.

Best,

Joshua Forman-Ortiz
Student Life and Leadership Assistant

SUPPLY CHAIN

Insights, trends, and technologies impacting supply chain

JUNE 20, 2024

From the Editor

Welcome back to Market Moves Supply Chain!

What does the state of digital transformation look like in supply chain? Many organizations are in the advanced stages of adopting digital technologies into their operations, some are conducting pilot tests, while others are still using spreadsheets and manual validation processes. Read on to see the top drivers, and challenges, for digital transformation.

Import cargo is set to hit its highest level in nearly two years, as the first half of 2024 has seen a 15% YoY rise.

Mexico has a new president. What does Sheinbaum's election mean for trade with the U.S?

A new model for supply chain diversification has been proposed, highlighting four dimensions necessary for resiliency and success.

—Tyler Fussner

Taking the Pulse of Digital Supply Chain Transformation

Here are the primary drivers and roadblocks that companies say are dictating their supply chain transformation initiatives this year.
